

## Native Collagen + HA

### Retail Price:

\$69.00

### Item Weight & Dimensions:

50 mL e / 1.7 Fl.oz

### Description:

Pure Soluble Native Collagen derived from marine sources with Low Molecular Weight Hyaluronic Acid promotes daily skin resilience and elasticity, reduces signs of premature aging, and increases overall skin hydration. Ideal for daily preventive anti-aging home care.

Our **Native Collagen + HA** promotes improved moisture content and turgescence to reinforce skin health, ideal for premature aging, young, or sensitive skin.

### Benefits:

This lightweight, fast-absorbing gel delivers the benefits of pure soluble native collagen derived from marine sources, with low molecular weight hyaluronic acid.

- \* Soothing gel formulation delivers exceptional deep hydration
- \* Increases the skin's moisture-retention capabilities to improve suppleness, texture, and clarity
- \* Improves skin recovery process post-exfoliation, skin resurfacing, or photorejuvenation treatments
- \* Reduces signs of aging, photo-damage, and appearance of fine lines
- \* Ideal for daily use for premature aging skin, young skin, or sensitive skin
- \* Fragrance-free. Paraben-free.

### Key Ingredients:

#### **Marine Soluble Native Collagen**

- \* Increases skin density, elasticity, and firmness in deep layers
- \* Nourishes the skin's foundation for improved skin resilience

- \* Accelerates skin recovery with increased hydration and moisture levels
- \* Amplifies skin's ability to retain moisture

#### **Low Molecular Weight Hyaluronic Acid**

- \* Hydrates and soothes the skin for improved suppleness
- \* Helps the skin to replenish its hyaluronic acid levels and encourages collagen nutrient absorption
- \* Increases the skin's moisture-retention capabilities within extracellular matrix

#### **Advanced Hydrating Factors**

- \* Replicates Natural Moisturizing Factors (NMF) to improve water-binding capacity of the skin and protect it from loss of moisture
- \* Increases skin smoothness, elasticity, and turgor
- \* Maintains skin hydration even with low atmospheric humidity

#### Skin Indications:

##### **Skin Types:**

- \* Normal, Combination, Oily, Sensitive

##### **Skin Concerns:**

- \* Post- skin resurfacing, chemical peels, skin tightening, or photorejuvenation treatments
- \* Pre & Post injectables
- \* Dehydrated, damaged, premature aging, preventive care

#### Application:

After cleansing, gently pat dry the skin. Apply a small quantity on the face and on the neck. Allow gel to penetrate for one minute, without massaging it in. Follow with appropriate Eltraderm moisturizer. Use in the evening or as recommended by your skin care provider.

**Tips:** If you're using our other serums or gels, and love to layer your products, after cleansing the skin, use the Eltraderm Native Collagen products first. Wait until each product has penetrated before the next application.
